

## Warp One by David Jenkins video DOWNLOAD

*Warp One* is a completely re-wired version of Roy Walton's classic *Card Warp*. The big news? David removes the cover card and performs the entire illusion in full view!

- **NO EXTRA PIECES!**
- **NOTHING TO PALM OR SWITCH!**
- **NO GIMMICKS!**

*Warp One* uses a single card from a normal deck... held out at the very tips of your fingers.

You fold the card in half then simply wave your fingers over the card, and the single card visibly turns inside out: First half the card, then the other half (both sides are shown), then the card turns completely inside out and then back to half and half.

**Each stunning visual change happens with a single normal card held at the tips of your fingers!**

You end with the classic Roy Walton ending by tearing the warped card in half and handing out the pieces for examination.

David Ren Jenkins' *Warp One* is a visual treat. The moves are completely invisible. The handling is a downright joy to perform.

All you need is a single card and your bare fingers to permanently warp your audience's reality.

Includes David's special handling for restoring the card.

**THE FINGERS MAKE NO MOVEMENTS OTHER THAN A GENTLE WAVING ACTION!**

**Special Features:**

- **Multiple Camera Angles** (including your point of view)
- **Alternate Ending** (David's method for restoring the torn card)
- **Pre-show** (how to bring the card into play)
- **Warp ONE inc.** (using a business card)
- **Paul Harris presents trailer**

*Running Time* Approximately 39min
