

Card Constructions by Ollie Mealing & Big Blind Media video DOWNLOAD

Ollie Mealing has a passion for playing cards that knows no bounds. And his incredible enthusiasm will benefit YOU!

On this video Ollie reveals five of his signature moves. From the simple, but mind-blowingly effective, Seesaw Peek to the beautiful Barrier Shift - it's a veritable arsenal of sleights to take every aspect of your magic into a brave new world! And you don't need to be a card ninja to learn and use these moves.

The SeeSaw Peek

An incredibly fair and open selection of two cards - which leaves you knowing the value of both cards AND hiding one face up in the deck. GENIUS!

The Barrier Shift

Forget the Classic Pass, the riffle pass, the turnover pass - The Barrier Shift is your new 'go to' move. And you do it right under their nose!

The Pit Control

Tilt gone supernova - a selection is cleanly inserted half way down at the FRONT of the deck. In full view and effortlessly you move it second from top!

The Clay Switch

A switch, a force, a colour change - you name it, The Clay Switch can do it!

The Station Double

Ever wanted to pull a double from the centre of the deck? Well, now you can!
