Who says lightning doesn't strike twice? Presenting John Guastaferrero's Second Storm, a follow-up to popular Brainstorm released in 2003. Second Storm continues John's brand of close-up magic; that is, strong, creative, practical and entertaining-ideal for strolling and formal close-up venues. John has earned the praise of magicians worldwide for his original ideas and effects. As Jon Racherbaumer puts it, "Second Storm demonstrates John's unique ability to transform effects into 'extraordinary moments.'" Second Storm includes never-before-seen card and non-card effects, as well as new twists from John's 2005 lecture notes. Also on this series are John's exclusive Brainstorm Breaks, where he shares additional ideas designed to spur your creativity.
