

## David Roth Ultimate Coin Magic Collection Vol 1 video DOWNLOAD

### Magic with Copper/Silver Coins & Expanded Shells

- **Copper/Silver Transposition**-The ultimate version of a time-honored classic!
- **Presto Chango**-A startlingly visual quickie where two coins-one copper, one silver-go through some miraculous changes that will leave your audiences breathless.
- Chinatown Half I & II-Two fantastic methods for the classic transposition between a Chinese coin and an American half-dollar.
- **A Coin Prediction**-a standard gaffed coin is used for a mentalism miracle.
- **Coins Across with Shell**-Perhaps the ultimate version of the Winged Silver plot as four coins magically travel from one hand to the other and finally, to the spectator's closed hand!
- **Photo Coins**-A tiny, blank piece of photo paper, initialed by a spectator, is sandwiched between two coins and develops an image of a selected card.
- **Coins Through Glass**-A visual penetration of a coin straight through the bottom of an ordinary drinking glass.
- **Coins Through Table**-A virtually sleight-free version of a coin magic classic!
- **Half and a Quarter**-A visual stunner as a quarter, passed beneath a half-dollar, visibly changes into another half. It then changes back-and everything can be examined!
- **Perfect Coin Through Handkerchief**-A version of the classic effect that will even fool magicians.

### Magic with Folding Coins & Specialty Gaffs

- **Magic Mint**-A half-dollar magically appears alongside a previously displayed quarter. The half is put away and then the quarter magically changes into still another half-dollar.
- **Coin In Bottle**-A classic of magic with a Roth-style ending. A half-dollar is magically passed into a bottle. The coin is removed by turning the bottle inside out-which is proven by the fact that the bottle's label is now on the inside!
- **Coins Through Table**-A visual stunner as the coins not only pass through the table but visibly vanish as they hit it.
- **Biting A Coin**-Learn David Roth's handling of a visual illusion that David Blaine made one of the most talked-about effects on his television special.
- **Scotch And Soda**-Every magician has this coin set. Now learn its proper use.
- **Dime And Penny**-An overlooked effect. Let David show you its true magical potential.
- **Copper/Silver/Brass**-The classic transposition of three dissimilar coins that ends with a stunning climax in the spectator's hand.
- **What's more**-you end clean!
- **Stack Of Quarters**-One of the oldest coin effects in magic history, yet it still packs a wallop! Learn David's handling of the classic Cap and Pence.
  
- **Cigarette Through Quarter**-A coin effect that still stuns audiences and David Roth's handling is perhaps the most streamlined version ever devised.
- **Eraser Coin**-One of David Roth's most innovative effects. The performer visibly rubs away pieces of a coin with an ordinary eraser and finishes by erasing one entire surface.
- **Karate Coin**-Thrust your finger straight through a half-dollar and then restore it-and you start and end with a completely examinable coin!
