

Handle with Carey by RSVP Magic video DOWNLOAD

The quotes below are from three of the world's finest card magicians who have had a sneak peek at this brand new video from John Carey. Featuring 11 superb routines, all of the effects are from John's working material and all have been worked and refined for many years. This not only makes them extremely practical for all working conditions, but also hard hitting and extremely direct. This video runs in at over two hours duration, representing great value for money.

"John Carey has a knack for creating strong, direct card miracles using simple and devious methods. The routines shine brightly in the real world"

- **John Guastafarro**

"John Carey is well known within a limited circle in magic for his uncanny ability to apply subtlety and subterfuge to effect magical moments of the highest order. It appears that now is the time for that circle of knowledge to be expanded... no knuckle busters, no pipe dreams, no angle limitations - these are all real workers"

- **Jack Carpenter**

"John is an alchemist; he turns moves you already know into the miracles you've always wanted to do. Imagine Card at Any Number, Searchers and Pocket Interchange all for the cost of a discrepancy and double lift. He's also able to squeeze solid, commercial magic out of coins with no wasted effort. Frankly he ticks me off!"

- **Kurtis Kam**
