

All Signs Point To Yes by Caleb Wiles and Vanishing, Inc. video DOWNLOAD

This entertaining walk-around piece allows you to change a card three times, all in pursuit of a selection. No table is required, and the presentation is a worker's dream.

In effect, you have a card selected and lost in the pack. You draw a "mystical" 8-ball on the back of an indifferent card. You ask the ball a question and when you shake the card, it changes to answer your question! The card changes color, suit, and value to match the selected card, and then the card with your drawing BECOMES THE SELECTION. The result is an amazing trick, and a perfect souvenir.
