This secret weapon is an invaluable tool for any working performer. Many of the top performers in the world are now using this technique to theme their shows, using it to give cold-readings and even enhance their cold-reading business by giving readings over the phone!!

A unique approach for the performer to give readings or theme their mentalism presentation around people's personality by they laugh and speak. Imagine being able to chose the right person to assist you onstage by listening to the way they laugh and speak. This book will open up new possibilities for anybody who gives cold readings, wants to give readings over the phone, or use it in their performance. Twelve years ago Paul Romhany and Ken Ring started work on giving personality readings by the way people laugh and speak. Their research, and work in this field has lead to the publication of "How To Tell Anybody's Personality By They Way They Laugh And Speak." This book opens up new doors for every mentalist and magician who wants to include a fresh approach to giving personality readings. The book dissects the various types of laughter and speech patterns, and how to give readings based on how a person responds to a joke or talks to you.

Paul Romhany now themes his entire one man mentalism show around people's laughter and speech patterns. On stage he will keep his show light and have

everybody laughing - all the while actually giving them readings. It's the perfect tool for mentalists who perform any routine where they want to tell the audience something about themselves. For the first time this book is available to the magic and mentalism fraternity. You will learn how to incorporate this in your act as well as give readings on people's laughter and speech.
