Switchboard Clipboard the Rising Card (Pro Series 10) by Paul Romhany and Wayne Rogers - eBook DOWNLOAD

From Wayne Rogers comes this amazing routine. A clipboard folder is brought out and a card is chosen. The performer shows one page on the clipboard with a picture of a thought bubble on it. Visually the thought of card rises up in the thought bubble on the picture. The magician then signs the piece of paper and hands it to the spectator to keep.

In this version of a Rising Card in picture the re-set only takes seconds. This is perfect for trade shows, private parties and those jobs where you don't have the time for much resetting between performances.

This book is a step by step instruction on how to make up this amazing effect with items you can buy anywhere.

Pages: 53 - 5" x 8" - PDF format - Black and white photos
