**You Blue It!** - A selected card from a red backed deck is signed on the face with a blue marker. The signed card then turns into a blue backed card as you exclaim "You Blue it", then the signature visibly vanishes from the card, then it turns into a red backed card and all appears normal as you say "I would like you to have a souvenir". You then put the signature back onto the card and turn the back to blue once again. Then the card is given to the spectator to keep and the deck can be openly spread. No gaffs!
