## *24 Mad Skills and Stunts to Make You Stand Out in the Crowd*

World renowned magician, pickpocket, trickster and all-round scamp Gregory Wilson invites you to attend THE SCHOOL OF COOL! A Download jam packed with teachings on all those crazy skills you always wanted to learn but didn't know how.

Walk a coin down your knuckles... shoot a playing card high into the air... break a pen lid with JUST your little finger... make a coin defy gravity and fall UPWARDS... spin a pen on the back of your fingers... always know if a tossed coin lands heads or tails... Twenty five primo-ace slabs of AWESOMENESS await you.

The skills taught on this Download will allow you to look like nothing less than an ice-cool urban ninja. Using items from the dusty recesses of your pockets (we're talking pen lids, coins, credit cards) and the venerable weaponry of the incorrigible hustler - a deck of playing cards - you can be prepared to unleash the 'awesome' in any environment.

Spend some time with Gregory Wilson and turn yourself into the kind of suave and effortlessly debonair sophisticate that turns heads and draws gasps everywhere they go.

It's class time at The School Of Cool.
