### **Broadside**

Claude Chandler's "Sideways Changing Card" receives the Duffie treatment.

### **From Beyond the Veil**

A two-card discovery with a little help from the spirit world!

### **Biddle Wed**

Another look at the classic Hofzinsler plot where Kings and Queens magically marry!

### **Dance Steps**

More Royal shenanigans.

### **Numberville**

A self-worker based (loosely) around the Card at any Number plot. The effect is "almost" hands off.

### **Royal Apex**

You cause the four Queens to vanish one by one. Then, in a fast series of actions, you cut the deck into four piles, each with a face up King on top. Finally, you reveal that each King has found his Queen.

### **Populace Revisited**

A different handling for a previous effect that appeared in Covert Concepts. In this version, all four Aces are visible at all times.

### **Post Production**

A trick with an invisible Sticky Note becomes a Miracle with a "visible" Sticky Note!

### **Searles' Aces**

My handling for an Ace effect that appeared in the Lin Searles Folio of Pallbearers Review. In this version, the X cards that are dropped on each Ace can be shown to be random cards.

### **Safe Cracker**

A Four Spot is inserted into the deck, which you immediately crack open at the middle to reveal a display of four single spots ... the four Aces!
