

## Instant Everything by Nathan Kranzo video DOWNLOAD

Ever want to pick your own pockets?

More specifically, ever been looking for something in your pockets and couldn't find it? Watch as Kranzo searches for his car keys, cell phone, money, and your selected card. BAM!!!! In an instant he has produced EVERYTHING. In one hand is his phone, in the other hand is his keys, in his mouth is a wad of money and now sticking high out of his breast pocket is one card.....your card....the Queen of diamonds.

That's just ONE possible routine with the Instant Everything system. Produce a cigarette, popsicle, wad of money, just about anything you can think of, in your mouth. At the same time make ANYTHING appear sticking out of your breast pocket, as well as other objects in each hand!!!

There are thousands of possibilities. Once you learn the principle you can create your own miracles.

Make a card appear in your mouth, make the wrong card change into the correct card, make your mustache vanish or change, make a giant lollipop appear in your mouth, the list of options goes on and on...

- You don't need a special jacket
- No special cloths.
- You can pick up the gimmick at any hardware store and Kranzo also teaches you to make it at home.

Up until now Nathan has only shared this with a small group of elite magicians. This is the trick that made David Copperfield say "DO IT AGAIN!"
