

Bullets After Dark (2 download Set) by John Bannon & Big Blind Media

Featuring brand new material, re-worked classics, and the cream of the crop from Bannon's best-selling book, Dear Mr. Fantasy. Bullets After Dark is a treasure trove of workable, awe-inspiring magic-from self-workers (that will fool you) to deviously constructed sleight-of-hand routines.

This is a veritable master class in contemporary card magic. Three hours of stunning material across two downloads-including in-depth interviews and commentary. Watch how Bannon thinks. How he constructs tricks. How he makes his magic special.

Your ticket to a "money-can't-buy" one-on-one session with one of the finest thinkers in magic today.

Part 1:

Dead Reckoning

She mentally spells the name of her card-and there it is! Just. Not. Possible. Sophisticated, yet self-working wizardry.

Dawn Patrol

He "accidentally" shuffles one card between two face-up Queens. Yeah, right, but you won't believe how-and how fast-this works.

Doctored Daley

Presentational judo to knock your spectator off-balance. See what a small addition to a classic magic trick can accomplish.

Power Of Poker

One card at a time, she forms two poker hands. He correctly predicts every one of her ten separate decisions. A self-working poker blockbuster, gone mental.

Counterpunch

The Dunbury Delusion slams into the Biddle trick. It's not just a card trick, it's a con job.

4 Faces North

Bannon's "Last Man Standing" leaner and meaner. Shuffle the cards face-up and face-down. No way! Only Aces staring upward.

Watching The Detectives

Continue your guided tour down the garden path. A sandwich trick from the twilight zone. You won't see it coming . . .

New Jax/Full Circle

Next stop: A highly-engineered, stealth fighter-like transposition. Welcome to the future.

Part 2:

Origami Prediction

A mathematical drive-by. Multi-stage prediction with error-correction. Fools you when you see it. Fool yourself when you do it.

The Einstein Overkill

Fooled Einstein; might fool you. Einstein didn't get to see the kicker ending. He wouldn't stand a chance.

Bullet Train (Iconoclastic Aces - Syncopated Aces - Interrobang Aces)

Iconoclastic. Syncopated. Interrobang!? Bannon's unholy trio of ace assemblies. Ahead of their time. A neo-modern classic.

J.B. Flytrap False Cut

Cool, tight, and not-too-flourishy. In your hands only.

The Bannon Triumph

Re-branding Bannon's classic four-packet Triumph routine. You know it, you love it. Or, will love it...
