

Bubble Gum Magic by James Coats and Nicholas Byrd - Volume 2 video DOWNLOAD

Byrd and Coats are known for their unique forms of magic. This magic duo has teamed up with Wrigley Jr. Co. to bring you one of the most unique forms of magic, BUBBLE GUM MAGIC. This download will teach you step-by-step how to perform hard hitting illusions with bubble gum.

Mercury Gum Box - A spectator's signed, chosen card ends up at the bottom of a gum display pack. A very easy method inspired by John Kennedy.

Shrinking Bubble Gum - The magician shows a piece of Wrigley's Hubba Bubba chewing gum, waves a pack of gum over the piece in his hand and opens his hand to reveal a shrunken piece of gum.

Hubba Bubba Huh - The magician wraps a piece of chewed gum around his finger, shakes his finger and the gum disappears. Another shake of his finger and the gum reappears.

Bubble Gum Matrix - Four pieces of gum vanish and reappear at the magician's will during a show of skill and cardmanship.

Blow it - A chewed piece of gum is taken from the magician's mouth and put in his hand. The magician opens his hand to reveal that the gum has vanished from his hand and reappeared in his mouth. This trick was inspired by Tom Mullica and his fantastic mouth manipulations.

Eclipse - Spectators are asked to remove a few pieces of gum from a pack of Wrigley's Eclipse gum. With a spin of the wrist, the magician makes the gum reappear in the now un-opened pack.

Eclipse Card - A spectator's freely selected signed card ends up in a brand new pack of Wrigley's Eclipse chewing gum. A perfect combination of "Eclipse" and card magic.

Plus 20 minutes of special features

Running Time Approximately 72min
