

Reverse by Alexandr Erohin - Video DOWNLOAD

Reverse Routine it is a routine which contains 2 rapidly reverse effects. Really fast methods to turn your cards face up, or even an all deck while your cards stay the same.

One Move Reverse

Spectator's card placed face down to the deck (somewhere in the middle) and in the deck all cards also face down. After only one secret movement - the spectator's card appears face up in the middle of the deck between Jokers, or Aces.

Deck Reverse

You put the cards back (spectator's card and 2 Jokers) in the deck and this time the whole deck reverses while the 2 jokers and spectator's card stay the same.
