

## **ABhyaas by Abhinav Bothra - Video DOWNLOAD**

**ABhyaas Change** is a fast and stunning card color change that happens in a split second and a small shake. Often confused to be done using gimmicks, it is 100% IMPROMPTU and requires 100% SLEIGHT OF HAND.

Taught in here are 4 different ways of performing this color change and 3 clean-up options.

[Note from Abhinav Bothra: It was brought to my attention that ABhyaas Change looks similar to Cody Nottingham's SOLE Change taught in his release Changes. Later, I found out that both changes are different in terms of grip, secret move, end position etc. It's mere co-incidence that they look similar.]
