"Some of my own favourite material and ruses are in this book - it's a steal!"
- Kenton Knepper

"I have watched most of his training programs, and I compare his style to that of

Bandler - a shameless self-promoter who is very good at what he does. Royale knows as much as anyone, and perhaps even more than most about hypnosis. He is a walking encyclopaedia and has a firm theoretical foundation not just a few tricks. The content is clear, exactly as promised and pretty good especially for the price. I will take JR, his products and his depth and experience over a to remain nameless real estate guy any day of the week!"

- Richard Nongard

"Having studied the training materials which accompany your courses, it is now my great pleasure to make you an honouree member of The South African Association of Hypnotists and a life member of The South African Academy of Hypnosis! This is your just reward for all the work you have put into Hypnosis, you have been acknowledged, elevated and exalted! This is indeed a wonderful time for the art of Hypnosis!"
