

At the Table Live Lecture - Jesse Feinberg 11/5/2014 - video DOWNLOAD

Jesse Feinberg is a true creative force in the world of magic. Having consulted for some of the top names in magic including the one and only Criss Angel, as well as produced mind boggling magic with the likes of Paul Harris, Jesse definitely has a story to tell. His magic is unique and baffling, with methods that will make you shake your head in disbelief. So prepare yourself as Jesse brings you into HIS world of magic. With effects such as:

Rip Off - A BRAND NEW, impromptu SIGNED torn and restored card.

X-Finger - Real permanent ink VISUALLY travels to a new location.

BLUR - A BORROWED iPhone screen becomes impossibly blurry.

McStraw - A super visual effect that uses an ordinary fast food straw.

Spell-O-Change - Make random scribbles on the cellophane of a deck of cards VISUALLY form into a written prediction. This one is EXTREMELY visual.

Coin Thru Box - Cause a BORROWED and SIGNED coin melt right through a regular card box.

Bits and Pieces - This is a section Jesse calls his "Inspiration round". This will be a discussion, demonstration of The Floating Card, The POP Card Change, The Ambitious Card and a NEW Mercury Card Fold.

PLUS! - Jesse will perform and explain some of his hit effects including Wedge, YaYa and Animate & Restore.
