

C-MORPH - Cash to Card by Marko Mareli

A VISUAL MONEY TO SELECTED CARD TRANSFORMATION

Faster than you can BLINK, change a BORROWED bill into a selected Card.

1. A CARD is chosen and a MONEY-BILL of any currencies is borrowed.
2. The MONEY is held at the fingertips and INSTANTLY changes into their chosen card.

The most AMAZING thing about this transformation is that the two objects are different sizes its instantly repeatable & impromptu. It's like Trick Photography. You should use your own bill incase if you don't know how you could reappear the borrowed bill again.

- NO GIMMICKS!
- VERY VISUAL!
- EASY TO DO!
