

## Intuition ACAAN by Brad Ballew - Video DOWNLOAD

**Intuition ACAAN** is a new approach to a classic plot. It provides a very relevant and personal experience for the spectator that is missing in many *ACAAN effects*. The spectator freely selects a suit and 3 random single digit numbers. The first two numbers become a position in the deck while the third number is used as the card value. Without touching the deck, the spectator counts down to find their card at the chosen position.

No sleights

No dealing from the bottom. It will always be from the top of the deck.

The performer will never touch the deck after the selections are made.

Does not use a memorized deck.

Very easy to do.
