

Magic School Vol 1 by Stephen Ablett video DOWNLOAD

This download features several tricks that Stephen teaches to children in his magic workshops and in one-on-one magic lessons for adults. They are all simple to master and great for any beginner in magic.

Impossible Jigsaw

Puzzle pieces are eliminated until your left with just one, the missing piece of the jigsaw.

Two Into One

Two pieces of string merge into one long piece.

Combination

A random number is created by the spectator, which amazingly opens a sealed lock.

Domino

A row of dominos is made and the end two numbers match your prediction.

Straw Thru Straw

Two straws wrapped around each other, magically separate.

Stretchy

Hair Ties change places and pass through the spectators arm.

Static Straw

Make a straw mysteriously move using the powers of your mind!

Chap Stick

Two chap sticks pass through each other and turn around.

Computer Cards

The spectator thinks of a number, yet you can read their mind and tell them what they are thinking.

Calculated List

The spectator does a little math to chose a picture which you have already predicted.

Coin In Bottle

Make a coin penetrate a sealed bottle.

Balance

Balance a can on its edge, a belt of a hook and two forks on a glass.

Five Card Turnover

A clip is placed on the middle card but jumps when turned over.

Finger Thru Banknote

Your finger tears through a banknote, yet leaves it unharmed.

Mind Reading Card Trick

The spectator thinks of a card yet you know what their thinking.

Ring Tricks

A ring magically appears and then jumps from finger to finger.

Legs Thru Floor

Make a friends legs feel like there going through the floor.

Suspended Water

You can make water stay inside an upside down, open bottle.

Playing Cards Match

Eight picture cards mixed up, mysteriously find their partners.

Hidden Object

An object is hidden under 1 of 3 cups, yet you know where it is.

Endless Chain

A game with a chain is played where you win every time.
