

Jack Spade: Storydeck by Stephen Ablett video DOWNLOAD

Jack Spade is a private investigator trying to solve the case of the stolen diamond ring. Told through the revelations of a pack of playing cards, this is a story-deck routine that acts as the finish to Stephen's close-up, parlour and stage shows.

Each card is produced from within the deck in time with the narrative. Stephen goes through several versions of the effect, the stack, the false shuffles, the revelations, secret marks, extra cards and all the gags - everything.

Its a card trick with every card in the deck and its a superb finish to any magicians set.
