

Cabaret Find the Lady by Stephen Ablett video DOWNLOAD

This is Stephen's stage size Find the Lady Routine using any three ungimmicked, any size cards. It can be done close-up with playing cards or business cards. It can be done on stage with A2 size cards with cartoon pictures on them or images of the company logo. The possibilities are endless.

Because the cards are ungimmicked, it can be customized to the client. So you can have a picture of the bride in-between two pictures of the groom for a wedding. You can have a picture of the company boss in-between two signs that say 'Your Fired' for a corporate dinner party.

On this download, Stephen teaches you his entire routine with several live performances which you can then use in your show, and also customize to your client.

He performs the effect close-up at tables, in his children's show, on the street (busking style) and on grand stages to thousands of people.

They play really big, but pack flat. All the cards are ungimmicked and are fully examinable.

The audience are involved throughout the routine, with them trying to find the lady at every step of the trick.

The moves are easy to learn and so its a great trick to teach in workshops.

He has performed this trick over 700 times over the last three years. It works with any three cards, of any size.
