

ReCard Monte by Steven Himmel video DOWNLOAD

ReCard Monte is an in the hands, multi-phase Monte routine with a kicker ending.

The magician starts with two red backed jokers and a blue backed queen. The queen moves from the center to the bottom, back to the center without any funny moves. The queen is then placed face up in the spectators hand and they are asked where the blue back card is. They say, in their hand. When they turn over the queen, it now has a red back and the jokers have blue backs.
