

## HOVER BY Marko Marelli - Video DOWNLOAD

Hover any selected card over the deck and feel like Back to the Future surfing on a board. Totally freedom on your control. No sticky, No Threads!

**BONUS:** Force any card you want without breaks. Beginners and Pros will love it for (shure) in sure!

*NOTE: You can also let the spectator select a card, then you place it in the middle. You then throw any regular card in to the pack of cards while dribbling the cards. You spread the cards and next to the throwing card is the selection! No BREAKS all done with same GIMMICK!*
