

In Action Set (Vol 1 thru 3) by Gregory Wilson video DOWNLOAD

With snow-capped mountains and plush pine trees as the new L&L backdrop, you'll see people laughing, screaming, losing their breath and simply staring into space from pure astonishment-and that's just from the striking lake view. Greg's magic isn't so bad either. Some of the bonus footage was shot in studio but most of it was filmed outside for real people around the spectacularly stunning Lake Tahoe area. It looks and feels like a street magic TV special. In other words, **Gregory Wilson IN ACTION!**
