Reviews of "The Transparency Template"

"The Transparency Template are the Only Stage Hypnosis DVDS I would Recommend"

- Ray Ronson - UK Stage Hypnotist <http://www.stagehypnotist.uk.com/>

"I have watched most of his training programs, and I compare his style to that of Bandler - a shameless self-promoter who is very good at what he does. Royle knows as much as anyone, and perhaps even more than most about hypnosis.

He is a walking encyclopaedia and has a firm theoretical foundation not just a few tricks. The content is clear, exactly as promised and extremely good especially for the price. I will take JR, his products and his depth and experience over a to remain nameless real estate guy any day of the week!"

Richard Nongard - Subliminal Science & Stage Hypnotist

<http://www.subliminalscience.com>

"The transparency template is a modern encyclopaedia of Stage Hypnosis on DVD. With more information than you will ever be able to use it covers the subject in depth. Jammed with inductions, suggestibility tests and just about every aspect of performing stage hypnosis you could think of. It also has well researched sections that cover the legal, health and safety aspects something that every hypnotist should know about before stepping on to the stage. I recommend it for that alone."

Jonathan Royle / Alex presents his material very candidly! I appreciate that! I have purchased a number of his training items (living in the States, live-training is a far-reach option for me) and I love each of them. Each item has over-delivered. Being a clinically certified hypnotherapist and a certified stage hypnotist for 6 years, in addition to my initial training, I have taken many additional training courses. Jonathan's training materials have taught me many items, techniques, insights, perspectives that I never learned in my initial live training courses! Most recently, I purchased the Transparency Template - LOVE IT. Great work, Jonathan, thank you. I'm constantly going back to it, it is beyond just training, it is a resource. The Health & Safety training it contains is worth many times the tiny investment alone! Additionally, Jonathan has extended himself for consult, even simple questions, regarding anything hypnosis, hypnotherapy, NLP, Complete Mind Therapy, stage hypnosis, etc. He's a personal person - the hypnotist's hypnotist. Thanks, very much, Jonathan!

Matthew Fallon - USA Stage Hypnotist - <http://www.hypno-tainment.com/>

"This is very detailed and comprehensive home study course covering all of the important stuff you simply need to know if you're even considering setting foot on stage, street or anywhere and calling yourself a hypnotist. One thing that really stands out is that he doesn't ignore any of the problems and dangers a hypnotist is likely to face. He doesn't even just give them an honorary mention. He faces them head on and discusses them in the manner of one who has been there,

done that and worn the t-shirt and implores you to learn from his own stuff-ups. Rather than just act as superfluous credits on the cover, Rob and other guests are utilized perfectly throughout the course and each is a great presenter and speaker in his own right, demonstrating the same enthusiasm for their chosen art form as the man himself Royle. To say much more would probably be classed as a spoiler, but I have to just add that the bonus DVD (regularly referred to during the main presentation) in my opinion is worth the price of this set all on its own. if this is your first purchase in this field, you'll probably have little need for very much else."
