

Corachange by Dan Alex - Video DOWNLOAD

"I've seen the performance of corachange and I like it very much. I am sure it will be a good addition to other color changes performed at the same table."

- Federico Soldati

A new and amazing trick designed by the sick mind of Dan Alex.

The magician presents to their audience a normal shirt with black buttons. He shows the button really stuck to it, passing his hand multiple times on the black button, and a third time the button clearly changes color from black to deep red.

What can I say?

The method is fantastic and clean, hands will be shown empty before and after the performance;

Material cheap and easy to find.

No thread, no sleeves, no magnets, Set-up ready in 5 minutes.

Is a nice opening for your live show!

What are you waiting for?

Buy this amazing effect that will surely give you a good fame!

A great reputation for a small cost!

That's the beauty of Corachange!
