WHAT THE EXPERT'S SAID ABOUT "MOBILE MAGIC" IN 2008.

"I wish you would have caught up with me before - I had been working on this and then put the easy way into "Ultimately Under" We could have both saved ourselves some time and money. Anyway I have scrapped ours as I have plenty of other projects for Wonder Wizards to do!"

KENTON KNEPPER

We also discovered through email communications with Kenton that he has used almost identical ideas to "Mobile Magic" for many of his high end personal consultancy clients including such as for Televisions Keith Barry, my point being if this sort of methodology is good enough for Kenton and his clients & students then its certainly good enough for both you and us to give full and proper consideration to.

When we emailed a proto-type of just one of the gimmicks to veteran Mentalist Lee Earle for his opinion his response was quite simply: "I looked over your materials - brilliant! I wish I had thought of using the Hypno-Disc first. You have a winner on your hands. Good luck with it."

Lee Earle

And when we sent one to Lior Manor he rapidly responded with the comment:

"thanks a lot. this is cool. I hope I can contribute something"

Lior Manor

BUT SADLY "MOBILE MAGIC" DIED IN 2008...

Yes it is true, a few months at most after we released this it was useless as Mobile Phone Technology changed and this no longer worked on 95% of phones and so it flopped at that point as it became useless to anybody...

THE PHOENIX HAS RISEN FROM THE ASHES...

We are now proud to announce the official 2015 "Mobile Magic" on Steroids Relaunch...

And after extensive testing this now works on 100% of all Android and also IOS phones and devices and also basically all types of phones and devices you can think of.....

TAKE ANOTHER LOOK ABOVE AT WHAT KENTON KNEPPER, LEE EARLE & LIOR MANOR THINK ABOUT THIS AMAZING UTILITY DEVICE...
