

Separagon by Woody Aragon & Lost Art Magic

Woody Aragon's name is synonymous with the creation of workable, potent card miracles that require nearly no sleight of hand. He's more about ingenuity, less about knack. This contribution to the magic community may be his most dynamic and versatile to date. This is Separagon.

What is Separagon?

A brilliant move that allows the magician to secretly separate cards without ANY sleight of hand. Odd from Even, Black from Red, Back from Face, and more. No difficult culling procedures or technical handlings are involved. Only a table or other flat surface is required. You'll learn this move in minutes and be able to add it to your repertoire almost immediately.

Woody has curated 5 of the most potent, diabolical routines using the Separagon, and teaches them in painstaking detail from multiple camera angles.

- Oil and Water
- Ambitious Suit
- Memorization of the Cards
- Progressive Order
- Triumph
