

## QQQ by Magic Encarta - Video DOWNLOAD

QQQ stands for Quattro Qolor Qhange where you show a card and show both your hands completely clean and then by waving your fingers on the deck, the suit of the card keeps on changing instantly and very visually. Although this move is not the easiest to learn, its fun to practice and the reward when mastered will be well worth it. Take your color change to the next level and improve your arsenal of visual and impromptu sleight of hand magic with QQQ.

This is a real worker and practical effect that can be performed anytime anywhere, even with a borrowed deck.

Special thanks to Lee Asher for his help and advice.
