

At the Table Live Lecture Bobby Motta September 16th 2015 video DOWNLOAD

Lecture 13 has gotten rave reviews from all who have attended. The material Bobby teaches is powerful, practical and has even fooled many magicians.

In this lecture Bobby will demonstrate one of his newest releases called Blue.

Bobby will discuss Blackmail and Informant. Both have many uses and Bobby will go into detail with different handling and routine ideas.

Bobby will teach BP which is a clever take on a peak that that uses a business card which has been fine-tuned with the input of Andy Nyman's ingenious mind.

Bloods and Crimps is a devious idea that Bobby will demonstrate and teach which uses a breather crimp. He has fooled many of the top pros in the industry with this one.

One of Bobby's go-to effects is STD. This is the one that is worth the entire price of the lecture. Enough said.
