

## **Rubber Exchange by Joe Rindfleish - Video DOWNLOAD**

It all started a few years ago in the hospitality suite at the 4F convention, Rubber Exchange was born! This is an amazing rubber band transposition where two bands in different positions change places. The switching of the bands is amazingly visual and can be instantly repeated over and over.

Rubber Exchange is a multi-phase routine with an amazing ending. This impromptu rubber band effect is easy to learn and your audiences will love it!
