

## **CAPSULE by Sebastian Calbry & Thibault Surest - Video DOWNLOAD**

There is no need for introduction for Sebastien Calbry, a French creator whose name is becoming more and more familiar in the world of creation. He is also the one behind several best-sellers (Off-set, Manivelle, Badge, and several more). Clever and ingenious, he is taking us on a ride with a few tricks, all in the universe of capsules (French for bottle caps).

Here, you will:

- Flatten a capsule imprinted inside your hands
- Pass a signed capsule through a drinking glass
- With only one hand, make a capsule signed by a spectator disappear, and reappear in your pocket
- Draw, right on front of your spectators, a heart on the bottom of the capsule which will disappear to reappear on the palm of your hand.
