Performance and Explanation of Hart's Link.

Jack Hart's version of a Paul Curry classic used with Jack's permission. This is the effect that first inspired Dean's Box. A fantastic routine using an ordinary red rope and an ordinary white rope. The ends remain visible the whole time while the centers of two ropes are placed behind your neck, and yet the ropes link in the cleanest possible manner. This will fool any audience. It's an effect Dean has constantly used in his strolling magic.
