

## Corner by Thomas Riboulet - Video DOWNLOAD

Corner is a routine which allows you to perform a torn and restored card effect.

The spectator selects a card and signs the corner. Then the corner is torn and kept safe in spectator's hand. Then another spectator signs the face of a blank card, and the magician tears the blank corner.

And now imagine, the magician restores the two pieces in one card. Impossible, unbelievable. Give this impossible souvenir to your spectator.

Easy to construct gimmick

Very powerful effect with a strong impact

Everything is fully examinable

No special ink, no special glue

Perfect for street magic

Detailed instructions
