

Magic Encarta Presents Singularis by Vivek Singhi - Video DOWNLOAD

SINGULARIS is the ultimate utility move that can be used as a control, a switch or an insanely visual ambitious card production. A card is selected and clearly placed into the center of the pack. In the action of a spring, the selected card visually pops up face up on top of the deck. This is the next big thing in sleight of hand card magic. Vivek explains the move in detail going over different angles, performance tips and even slow motion replays to help you learn this move in the easiest way possible. Download it Now. Special thanks to Alvin Lui for coming up with such a badass name for this control.
