

## The Ultimate Tantalizer - 4 Of A Kind Deluxe By La Ville Magic video DOWNLOAD

La Ville Magic has made a series of new card effects. This is the first in the series.

The first selection is based on the old effect "The Tantalizer" from the book "Royal Road to Card Magic". The handling has been changed, so the spectator can help discarding some of the cards. The magician deals out the cards, and cards are discarded by the magician and the spectator. The last card will be the selection. Then the magician finds the other 3 cards matching the selection and gets 4 of a kind. The magician tells the spectator, that 4 of a kind is a very good hand in a game of poker.

Then the magician cuts to the 4 aces and wins the game.

The other 3 routines are based on the same handling.

**Black Jack:**

The spectator selects one card (an ace). The magician finds the other 3 aces and then cutting to the kings and shows 4 hands of black jack.

**Dating:**

The spectator selects one card (a king). The magician finds the other 3 kings and then finds some ladies for the kings. The deck is now setup to cut to the 4 aces, or any other setup you want to use for your next card effect.

**4 of Kind Light:**

The spectator selects one card. The magician find the other 3 cards that matches the selection.

There are setups for the aces to the kings.
