

At the Table Live Lecture Branden Wolf May 4th 2016 video DOWNLOAD

Branden Wolf is without a doubt one of today's underground creative forces in coin magic. Murphy's Magic is proud to host Branden at his first At The Table Experience as he opens his treasure box of secrets. You may know Branden for his Previous DVD release entitled "Wolf" where he taught some of the cleanest & heart-stopping moves that we've ever seen. Well, now he's bringing a whole new level of deception to the ring for you as we delve into his world of sleights, moves, routines and ice-breakers.

Why coins? Branden will go over his views on sleight of hand coin magic, his style, coin size, and coin magic's applicability to other areas of sleight of hand magic. He'll cover a variety of sleights focusing on the age-old retention pass, his work on John Born's fascinating Balance Palm, and the ever deceptive art of the click pass. Learn to produce, vanish, change, click, and transpose coins in one-off effects and routines. No cards needed. Seriously. There will be a single card trick. Coins will take center stage.

If you're a coin master or just learning to handle silver, Branden will have something that you're going to love.
