

Move Zero (Vol 2) by John Bannon and Big Blind Media video DOWNLOAD

"I knew Move Zero would be good, but truly it's one of the best things I've seen in years!"

- **Iain Moran**

John Bannon's **Move Zero** is undoubtedly the most exciting study of self-working card magic this century.

On **Volume 2** you will find ten eye-poppingly powerful routines, none of which require a single move. There are no sleights. Zero. No gaff cards. No gimmicks. No marked decks. Nothing but you, an ordinary deck of cards and a shell-shocked audience. Most of the routines are even impromptu, meaning that you can perform them after being handed a deck and asked the age old question 'can you show us something?'.

However, **Move Zero Volume 2** won't just teach you awesome tricks. You'll also get an invaluable front row seat at the explanations for each routine. Hugely in-depth, these mini-lectures expose John Bannon's remarkable thinking and crucially explore not just the 'how' of a trick, but the 'why'! As card shark John Carey said:

"A lot of self-working material is too procedural with no rhyme nor reason. Bannon has the uncanny knack of wrapping simple but meaningful presentations around his work and you will see this time and again in Move Zero."

And on top of that, you'll also learn seven indispensable techniques that can be added to other tricks and routines. These 'trickbag' skills will empower you to enhance and develop every card trick you ever do in the future. With these tools in your armory, you'll be able to turbo-charge ALL your performances.

Forget everything you think you know about self-working card magic. It's time to plug into **MOVE ZERO**.
