

ShinSplint 2.0 by Shin Lim video DOWNLOAD

Four Aces turn face-down, one by one, each in a more stunning manner than the last; all done with just the fingertips.

Stunning. Shin's favorite phase is when the third Queen appears as he turns the fan around. This part kills and fools even the most seasoned magician. Shin Lim has been performing this routine for the past 8 years, and has impressed countless magicians with this amazing rendition of twisting the Aces.

Taking inspiration from Guy Hollingworth's 'Waving the Queens,' ShinSplint 2.0 cranks the card-by-card inversion plot into overdrive.
