

The Single White Dwarf by Scott Creasey video DOWNLOAD

A multipurpose, innocent appearing, easy to make utility prop, that should be in the arsenal of every mentalist.

The Peek Envelope just evolved.

With a nod to Bob Cassidy's original '*White Dwarf*' and his later '*White Dwarf Revisited*' Scott's Single White Dwarf peek envelope, does away with the second envelope, closes the window and instead uses a standard, security lined, single, white letter envelope which can be freely handled by the spectator and is suitable for stage, cabaret and close up.

This 45-minute instant download video includes full manufacturing instructions (it shouldn't take more than 15 mins and cost pennies to make one), a number of routines, including, '*Dwarf Dimensional Telepathy*', '*Name and Place*' and Scott's own '*A Psychic Medium Called?*', plus various handling ideas and performance tips.

No electronics, special pens, magnetic film, chips, Wi-Fi or windows required, just **'A Single White Dwarf'**.
