

Magic Encarta Presents Spring God by Vivek Singhi video DOWNLOAD

The spectator freely selects a card, any card, no force, signs it and the card is lost in the middle of the deck.

The deck is handled naturally, and with just a spring, one card turns face down, reversed in the middle on the deck, it's their selected card - every time.

Completely impromptu using pure sleight of hand, a mechanical miracle. All under your complete control.

INCLUDES:

Spring God Popout Move

Spring God Secret Reversal

Taught in intricate detail by Vivek Singhi, no detail is left out, as he guides you through the learning process each step at a time. The secret move can be applied to almost any card routine, to turnover a card secretly or even visually in the middle of the deck. Can also be applied to Ambitious Card Routine where the card visually pops on top of the deck.
