

At The Table Live Lecture Kyle Littleton September 7th 2016 video DOWNLOAD

We're glad to welcome **Kyle Littleton** to an *At The Table Lecture*. Best known for his effect "400 Lux", Kyle is one of the most refreshing innovators and thinkers to hit the scene. His lecture offers something for every skill level, and his presentations are filled with wit, humor, and honesty. Learn effects with cards, coins, stickers, gum, and bills. Here are some things you're going to learn:

Wayne's World: A presentation for "Out of This World" using movies that makes the trick more personal and humorous.

Up to Three Packs a Day: A triple changing gum pack that ends with you giving the gum away. Kyle will also include a bonus effect where the gum is changed into a jumbo pack.

Ticket Please: A hands off prediction effect using real movie theater tickets.

Cheap Brands: A dollar bill visually becomes an origami folded t-shirt. Just as surprising, the origami t-shirt itself changes into a two dollar bill.

Emergency Fund: A bill change that happens under the cellophane of a card box.

Invisibly Triumphant 2.0: A thought of card "Triumph" routine.

ACAAT: A handling of ACAAN that uses no math or estimation.

Invisible Phantom: A thought-of-card becomes the only card in the deck and the rest become completely clear.
