### Some unsolicited reviews:

"I just read "Tequila Hustler". It is **by far the very best method** using the liar/truth theme. Very, very clever!!"

- **Jean-Jaques Sanvert**

"I very rarely praise anything... as I think too many times things are hyped, over priced and many times add nothing to move a plot forward, but thankfully, to me TH was well worth it and I'm glad I purchased it. As someone else said... **I will use this for the rest of my life.**"

- **Steve Haynes**

"**This is really brilliant**, and I do not like to hype things. So, it is no hype from my side."

- **Jan Forster**

"If you liked Marks CAM books then you will love this. It's the best thing he's released for years (and he's released some good stuff!) It's just **brilliant how simple it is to do** and the thinking in this booklet really is worth so much more than its price. After using this last night I absolutely love it and **will use it forever.**"

- **Sean Giles**

"I sometimes see posts along the lines of "I wish he didn't release this as I want it all to myself" and I just thought of them as advertising hype from a stooged friend. Not any more. **I really wish this was kept under wraps.**"
