

The Vault - Torn by Daniel Garcia video DOWNLOAD

In the basement of a seedy Las Vegas hotel, Daniel Garcia slowly touched two pieces of a torn playing card together. Achingly slowly, with no cover. And then he let go of one piece, and-it was restored! Paul Harris shook his head and softly muttered, "If this kid's not using some kind of sticky stuff, he owns me." Daniel restored the third and fourth pieces in equally miraculous, just-touch-it-and-oh-my-god-it's-restored ways, and handed Paul the card. NO STICKY STUFF!

In lieu of Paul's mortal soul, Daniel agreed to let Paul get **Torn** out to the world. It really is the next great leap forward in the piece-by-piece restoration; it's totally practical and even more magical than the original TV-only version.

With this download and a little work, you'll have a breathtaking magical effect you can do anywhere with any freely selected signed card. **Torn** didn't just astonish Paul Harris -- Daniel has owned just about every magician and, for sure, every layman to whom he's shown his creation.

Daniel Garcia's **Torn** is a must for anyone who wants to perform a truly miraculous piece-by-piece restoration.
