

The Vault - The Process by Andrew Gerard (Two Volume) - Video - DOWNLOAD

Here's the invisible framework and formula that may profoundly change the way you perform, create, and even THINK about magic!

Andrew Gerard sits down with longtime friend, Bro Gilbert, and for the first time, reveals all of the above.

Gerard shows 5 effects that incorporate **The Process**.

- Light Room Drawing Duplication (The only drawing duplication you will ever want to do)
- Buyer's Remorse (A take on Simon Aronson's Shuffle Board)
- Left Brain Right Brain (The ultimate Out Of This World presentation and handling)
- Human Connection (Thought of card, thought of number -- a perfect way to put two people in sync)
- What about you? (A non-gimmicked Invisible Deck routine that is all about the spectator)

The information contained in these downloads will give you the ability to create an experience in people's lives that is beyond your imagination... you will never look at magic the same way again!
