

## Magic Encarta Presents **ISOLATED** by Vivek Singhi - Video - DOWNLOAD

**ISOLATED** is one of the cleanest, most direct, visual, and baffling Finding the Aces routines you'll ever see. A completely shuffled deck with 4 Aces lost in different parts of the deck is tossed onto the table. As the cards land, they break into four packets. The spectator now turns over the top card of each packet revealing the four Aces. Now imagine this happening in the SPECTATOR'S HANDS!!!

Your spectator has complete control of the deck, and they are the ones who throw it and locate the 4 Aces. The entire audience watches the magic happen right in front of their eyes, as do you! This is what REAL MAGIC should look like!!!

**ISOLATED** lets you do the impossible by allowing you to put the magic in your spectator's hands, LITERALLY, and the reactions, well... CRAZY would be an understatement.

PS: **ISOLATED** can be performed completely surrounded, 360 degrees angle-proof and works EVERYTIME!!!

Download the video and learn this amazing Finding the Aces effect!
