

3 Coins 4 Your Thoughts by Paul Voodini eBook DOWNLOAD

Paul Voodini's **3 Coins 4 Your Thoughts** is a full, self-contained, multi-phase reading system. It's perfect for any situation - impromptu or in-depth. Utilizing just 3 coins (your own or borrowed), you will be able to give wonderful, uplifting readings to both friends and complete strangers. Because this system uses items that everybody carries in their pockets, wallets, or purses (3 coins), its great strength is perhaps in social settings. At those times, you may be asked to demonstrate something "weird!" However, because this is a fully formed reading system, it is equally ideal for a more in-depth formal reading. This is a unique reading system and does not contain any elements from the I-Ching.

This great system can be used by itself, or you could incorporate other elements such as Tarot or palm reading if you wish. This is such a strong, robust system that you will be equally comfortable using it alongside other oracle systems, or purely by itself. You could even include pieces of coin magic as well!

3 Coins 4 Your Thoughts is suitable for both beginners and experienced readers alike. It is a reading system that will go straight into your repertoire the moment that you finish reading the PDF!
