

Uncatchable by Olivier Pont - Video - DOWNLOAD

Most of the time, magicians are afraid of performing tricks that require them to fold a card. That's why **Uncatchable**

has been devised -- to make your job as easy as possible.

Indeed, your hands will really be free throughout the entire performance, just like the handling of the deck!

Placing the cards inside the box will be an easy job, too. And trust me -- with a little tip, everything will be examinable.

Discover the full performance now!

The spectator selects a card. 100% free choice. Card is signed and lost in the deck. Deck is placed inside the box.

Now for the magic! The cellophane is moved forward a little bit. Then, in the blink of an eye, a folded card appears in the space created by the cellophane! The cellophane is removed by the spectator, the card is unfolded, and it's their signed card! IMPOSSIBLE!

- 100% free choice
- Easy to perform
- Extremely visual
- Everything is examinable
- Easy to make
